Wednesday, February 16th
4:15-5:05, room 380C

Why is the Riemann Hypothesis Important?
Professor Keith Conrad (UConn/Berkeley)

ABSTRACT:

The Riemann Hypothesis is considered one of the most important open problems in mathematics, but why is it such a big deal? The reason it matters so much is that it is connected to so many other questions. I will discuss the history, scope, and range of consequences of the Riemann Hypothesis.
