

The SUMO Speaker Series for Undergraduates

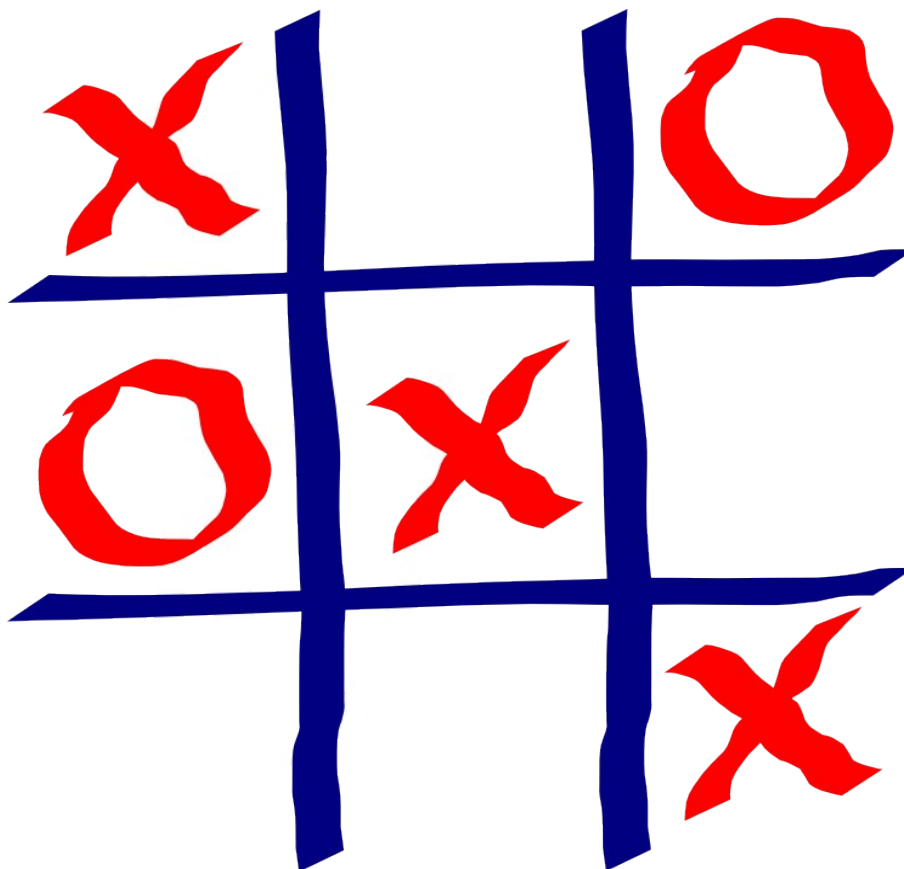

Thursday, January 24th

4:15-5:05, room 380C

(Food Provided)

Combinatorial Game Theory

Professor Jacob Lurie

ABSTRACT:

This talk will be an introduction to the theory of combinatorial games: that is, games of no chance and perfect information. After introducing some basic definitions, I will give some examples that illustrate the quirky arithmetic features of the world of games.
