

Solving the "Separate Pieces" word search yields what looks like the pieces of a tangram puzzle.

SEPARATE PIECES

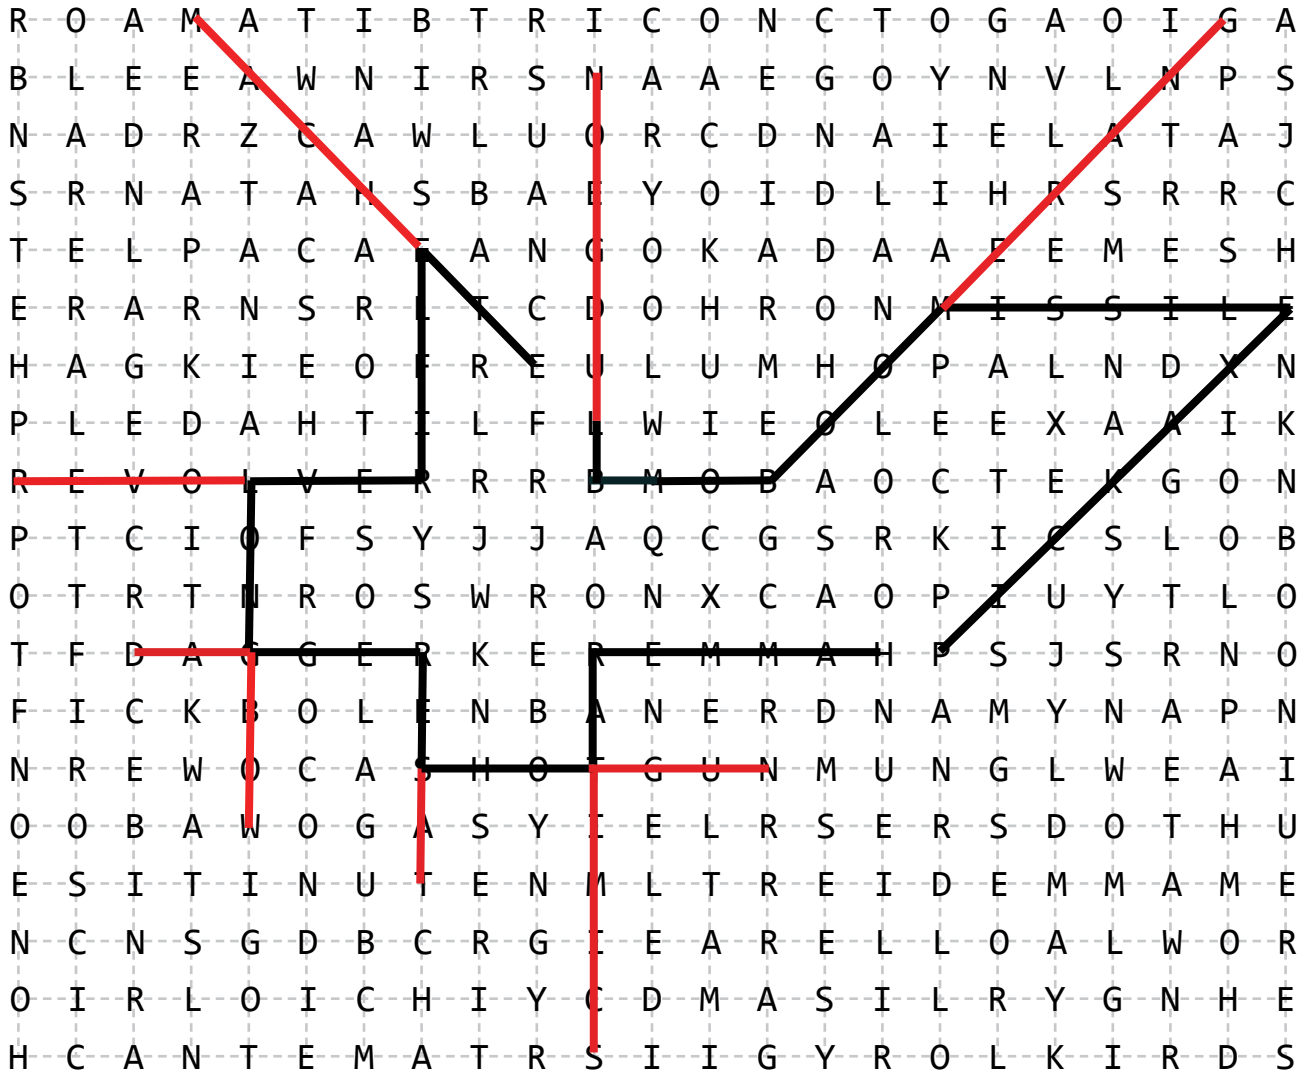

BARREL	PETROL
BOLT	PIPES
BOTTLE	SAFETY
GRIP	STRAPS
HILT	TRIGGER
LIGHTER	

Solving the “Final Products” word search yields a picture of a sword, which also looks like a tangram puzzle. We can “trim the stray ends” first by removing the extraneous line segments that don’t form the sword.

FINAL PRODUCTS

Feel free to trim off the stray ends – I’m not interested in them

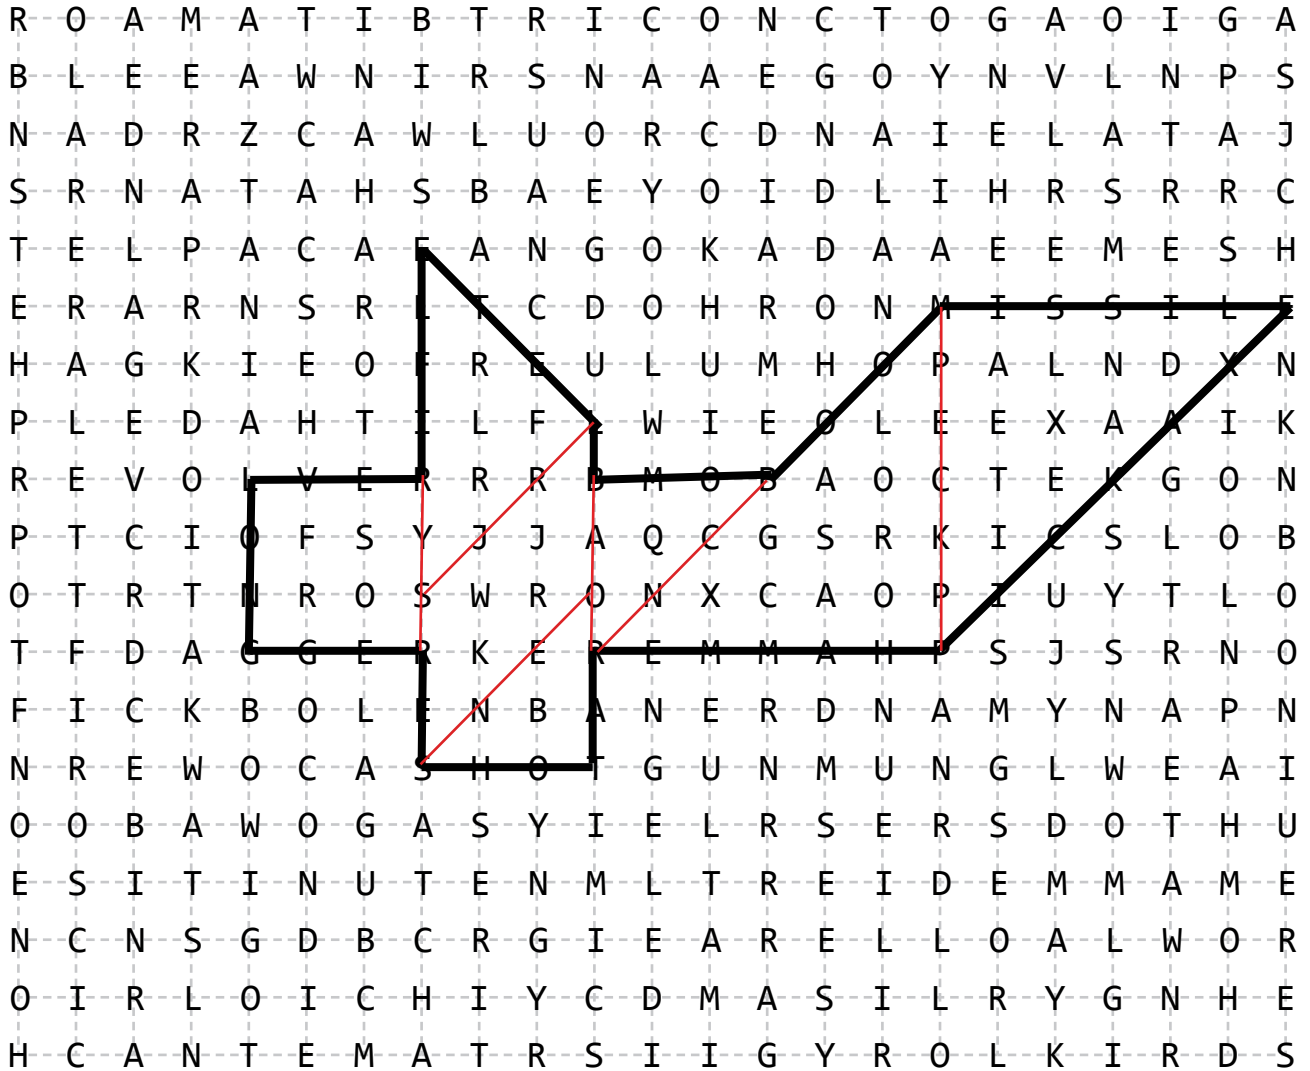

BOMB
BLUDGEON
BOOMERANG
DAGGER
HAMMER
LONGBOW
MACHETE

MISSILE
PICKAXE
REVOLVER
RIFLE
SCIMITAR
SHOTGUN
TASER

We solve the tangram puzzle; there are actually two solutions, but they both lead to the same final answer. One solution is shown below. We note the new internal boundaries that we introduce with the tangram solution.

FINAL PRODUCTS

Feel free to trim off the stray ends – I'm not interested in them

The new boundaries cross new letters, which we read from top to bottom, left to right as:

PERCYJACKSONPEN

Percy Jackson's pen, in Rick Riordan's book series *Percy Jackson & the Olympians*, is most commonly called

RIPTIDE
