

MAGIC BALLS

SOLUTION

These pokemon are:

Chinchou Numel Nidoqueen Camerupt Alolan Sandslash

All of these pokemon are dual-type.

The pairs of types and the italicized text about twisted wires and pairs hint to the [25-pair color code](#) for numbering twisted wire pairs. If you map these onto colors, you get:

Water/Electric	Blue / Yellow	16	P
Fire/Ground	Red / Brown	9	I
Poison/Ground	Pink / Brown	24	X
Fire/Ground	Red / Brown	9	I
Ice/Steel	White / Gray	5	E

The answer is: **PIXIE**
